**Where good
ideas take off...**

CREATIVE visual SOLUTIONS

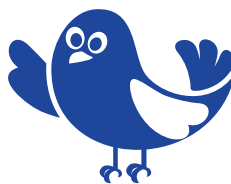

K-Designs produce a whole spectrum of creative visual solutions for all types of businesses and start-ups as well as private individuals across Ireland and the UK. We offer a wide range of media from a simple flyer to complete print services.

We have a professional team of creative and imaginative designers offering a 'one-stop' solution from the initial design concept right through to the finished printed product.

K-Designs aim to create brands and visual solutions that succeed for you – whether it's a complete re-branding, brochure, advertisement or shop sign.

**'ONE-STOP'
design & print**

We like to work closely with all our clients – large or small – with creative ideas that help sell or promote your business or product in an original and interesting way, but always keeping budget and timing in mind.

Offering a 'one-stop' design and print service allows us to provide that little extra to help make you stand apart from your competitors, keep your clients, win new business and develop new markets.

**To get your
business off
the ground...**

**Talk to us today. We'll be
happy to discuss what
best suits your needs and
budget – no job is too
small or too big.**
